Juan Barajas

Q2

Email address:

Lafambarajas@aol.com

Q3

District 6

In which Fremont City Council district do you reside? You may look up your Council district here: City of Fremont Council District Locator Tool

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Developing a vital business district while maintaining the cultural and historical value of each district along with safe open spaces in each community district

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Yes, the boundaries appear to be built without any services addressing the growling urban sprawl

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

The new developments being built adjacent to the tesla plant and 680 should be in district 6

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Clarify the business and service pros and cons of the redistricting process for transparency

(A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

I've never heard of this phrase before and have no idea how to answer this question. How would I know if there is a community of interest. I have an interest.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Yes. District 6 is a joke.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

The whole thing is a mess and looks like it was done by someone who does not live here.

Q7

What are other notable areas in the City and what are their boundaries?

Notable areas? No idea what this means.

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Gerrymandering anyone?

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Glenmoor Homeowners Association has been very helpful in keeping this community a very pleasant place to reside for 50+ years

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I am aware of the boundaries. I can't say I am aware of the benefits.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

No

Q7

What are other notable areas in the City and what are their boundaries?

The new downtown is notable. It is the biggest change we have seen, especially the large number of multiple dwelling units.

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Fremont does a good job with city planning. We have been pleased with most of it. Getting information out to citizens is really important.

District 6

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

I do not know about COI for our area. Our District 6 rep is more interested in getting her picture taken with important people that have nothing to do with District 6 than she is about representing District 6. I am interested in our community adhering to COF codes and it's just not happening now.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Yes, I am familiar. I do feel the current boundaries are good.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

No

Q7

What are other notable areas in the City and what are their boundaries?

Not sure

Q3

District 5

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Mission San Jose - an area that desperately needs a resurgence of retail and restaurants

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I am familiar with the boundaries. Using I680 as a boundary cuts Mission San Jose off from Mission Highlands, splitting up what should be a strong community of interest. Using the Mission High School boundary would be much more appropriate. District 5 is so geographically large that it does not have a core community of interest and leaves Mission San Jose as an afterthought.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Yes. See answer to 5 above. Splitting the Mission along the freeway and then including so many areas with different concerns (e.g. the new development around Warm Springs Bart) marginalizes the Mission area.

Q7

What are other notable areas in the City and what are their boundaries?

The current map clearly largely respects the historic areas of Irvington, Washington Township and Centerville. It also keeps the Niles district intact.

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Drawing boundaries is a challenge, but I feel the entire Mission area (best defined by the high school boundary) included in a single district.

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

School age family; Irvington high school district

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Yes, they seem ok. There could be some tinkering at the edges. For example, the neighborhoods along Mission Blvd north and south of 680 seem similar enough to be in the same district.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Using Paseo Padre as an eastern boundary and Grimmer as a western boundary might make slightly more sense than the current boundaries.

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Unfortunately, I live in a district that is wonderfully Asian and diverse, but I do have any shared interest in the district

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Yes, and understand that these districts were truly NOT drawn by citizens, but those CC members who were already seated and did not want to give up their seats.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Areas in district 2 should be included in district 1

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Please explain how districts 1 and 6 have large areas of unpopulated people.....last I checked these are not voting individuals.

District 1

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Our defining feature is our economic and racial diversity. We also incorporate some of the best Fremont has to offer in terms of access to nature with Coyote Hills and the Alameda Creek Trail. Maintaining both this diversity and access to green space is important.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I'm paying attention to the process this year because I'm concerned about maintaining democracy and fairness. Some in the community feel the current lines were drawn to cater to special interests. I want to do what I can as one citizen to engage in the process, make sure there is no gerrymandering or catering to special interests (per Federal and CA law). Our democracy depends on this process being done right in every city and state.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Current District 1 lines make sense, although I understand they may need to be expanded for population balance. If this is needed, I would think dipping further into District 5 along the bay would make sense from a COI perspective.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

I would like to better understand who National Demographic Corps is, and what their relationship is to Capitol Core. Transparency is a key part of this process. I'm not sure why Jeff Simonetti tried to hide the fact that he is actually an SVP with Capitol Core during the meeting on Nov 3. He said it's just another firm he consults for, but this is now how he presents himself on LinkedIn. If there is nothing to hide, then all facts should be on the table. Again, the most important part of the redistricting process is that it is fair and represents no special interests. Jeff appears to have a fundamental conflict of interest.

The biggest POIs are our schools. Lines should match attendance areas of schools.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

The boundaries make no sense.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Boundaries should mirror school attendance boundaries. ie the American High Attendance Boundaries, The Mission High AB, etc

Q7

What are other notable areas in the City and what are their boundaries?

Not sure why they are drawn the way they currently. Lines drawn seem political in nature. Maybe drawn on racial and socially economic lines??

The current boundaries were draw to protect the seats of the city council at the time and to prevent them from having to run against each other at the next election. They also made sure that the more affluent areas held the majority of the council seats.

Q6

Respondent skipped this question

suyog.lokhande@gmail.com

Q3

District 5

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

School

Q5

Respondent skipped this question

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Q6

Respondent skipped this question

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Need separate mid and high school for Warm springs, Weibel area

Q3

District 6

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

It's hard to say. I guess it would be a combination of geography (people in south-eastern Fremont), education (people in the same HS district), employment (white-collar), and culture (Chinese-American).

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I am a relatively new resident of Fremont and don't have a good feel for the geographical splits yet. From looking at the map, they seem reasonable at first glance.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

I'm in District 6, but I mostly moved here for the high school (MSJ), which is in District 4. So perhaps I could be moved to District 4, but I don't feel too strongly about it yet.

Q7

What are other notable areas in the City and what are their boundaries?

District 5 is quite large. With all the new housing coming in, I wonder if District 5 needs to shrink and give some of its territory to District 3 or 6.

Q8

Respondent skipped this question

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Q3

District 1

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Parks, bike trails, school

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I think Fremont is separated into "Old Fremont" - residents who have lived here for over 25 years and "New Fremont" - residents who moved to the area to be closer to high tech jobs. Old Fremont residents do not want new housing, new residents and think Fremont is too crowded.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

I think the areas that are on the borders of Northern Fremont (Newark Blvd/Ardenwood Blvd), Patterson Ranch/Union City that should be re-examined.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Please review the areas where new home construction has been built in the last 5-10 years to help gauge the new redistricting process.

Q3 District 2

In which Fremont City Council district do you reside? You may look up your Council district here: City of Fremont Council District Locator Tool

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

I love outdoor spaces, walking areas, hope that my community has nice mom and pop stores and less of the chain stores. I would like to see more trees

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Right now, it seems that most resources go to the Glenmoor area in district 2. Glenmoor seems to have strict rules against development and so much money invested in trees. At the same time our city council member does not have any problem allowing condo development in Northern Fremont off of Peralta. Peralta is unsightly with condos and no trees.

Q6

Respondent skipped this question

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

I think Glenmoor should be separated from District 2 so that other parts of District 2 can also have its own voice.

Q3

District 1

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Safety, affordable housing, good green spaces and safe roads for bikes. Not sure if this what you were looking for.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Also I'm curious how the population and demographic splits out among the districts. I can look it up.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

We don't appear to have a high school (closest is in union city or American in district 2). Not sure if that matters but are city taxes spread through all districts regardless of schools and public facilities?

Q7

What are other notable areas in the City and what are their boundaries?

Quarry lakes is much larger than I thought. Can the city do more to develop that park?

Q8

District 4

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Our common interest is going to Mission high school, not Kennedy high school. It's closer to our home.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Current boundaries is fine. There is no bookstore kids can go nowadays. Our main library becomes homeless camp ground now. I don't enjoy going there anymore. I think we need boundaries for homeless people. Does the navigation center work at all?

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

We are fine here. Please save the energy and money to solve homeless problem.

Q7

What are other notable areas in the City and what are their boundaries?

Too many homeless camping in the public area.

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Gomes belongs to Mission district. Please solve the homeless problem.

Shared neighborhood - homes built at same time and fairly well maintained

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Neighborhood was split in two randomly. Would like to see it changed.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Always called Glenmoor but the neighborhood was split down Richmond and put in District 2 & District 3. Need to keep neighborhood together.

Q7

What are other notable areas in the City and what are their boundaries?

Always have had 6 historical districts.

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

School boundaries

1. car owners/commuters as a COI

Q5

Respondent skipped this question

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

District 3 should go away, there's an imbalance of representation along a small corridor. Solving it by adding district(s) is financially unsound and would increase friction.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

Don't add any districts, simpler is better.

1. Community of like minded, non-racist, non-discriminating people
 2. Intelligent, hard working, college educated, nation building professionals
 3. Community that does not want rampant developer dominance and priority for existing (vs new) home owners in public school admissions.
-

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I feel the demographics of the districts defined the boundaries vs the other way around. Demographic diversity allows all types of people to live within the same city and avoids cross commuting all over the Bay to live vs work.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

Wiebel, Warm Springs including the newly developed residential areas near Bart should be given their own district due to increase in population with increase in the number of residents.

Q7

What are other notable areas in the City and what are their boundaries?

No opinion

- Low crime
 - Controlled traffic monitoring for congestion-prevention & control errant/dangerous drivers
 - Infrastructure to support quality of life for seniors
 - Awareness and visible smart city initiatives
 - Continuing close-knit relationships between citizens & law enforcement.
-

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

I do not understand the underlying logic/justification of current district boundaries as they are drawn currently. An explanation would be welcome.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

The current outlines of District #2 don't make sense to us.

We believe the southern district boundary must run along Blacow Ave. , Eastern boundary along Mowry Ave. & Northern boundary along Paseo Padre Pkwy.

Q7

Respondent skipped this question

What are other notable areas in the City and what are their boundaries?

Q8

Please submit any additional comments you would like the City of Fremont to consider in the redistricting process.

As an expert on smart cities strategy, I would really like to see Fremont publish a clear Smart City vision and an Implementation Roadmap. Also a single point person tasked with achieving implementation goals.

eebclee@gmail.com

Q3

District 2

In which Fremont City Council district do you reside? You may look up your Council district here: [City of Fremont Council District Locator Tool](#)

Q4

Tell us about your community of interest (COI)? What are your shared interests? What brings you together? What is important to your community? (A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation. Definitions of "communities of interest" do not include relationships with political parties, incumbents, or political candidates.)

Glenmoor, one of the first Designated Neighborhoods in Fremont, with an HOA and its own design guidelines as recognized by the city. Glenmoor has a strong sense of community. The neighborhood was only split between districts so that two incumbents who both lived here would not have to run against each other, a reason no longer allowed under state law.

Q5

Are you familiar with the City Council's current district boundaries? If so, what is your overall sense and feeling? Do you feel the current boundaries generally capture communities of interest in Fremont? Is there anything that stands out to you, either positive or negatively, about the current boundaries?

An mentioned above, Glenmoor was split for reasons no longer allowed under state law. The council was presented with two maps, one of which did not split Glenmoor and received the majority of public support. The council chose to split Glenmoor instead.

Q6

Are there nearby areas that aren't currently in your boundary, that you believe should be included in your district or nearby areas you believe should be removed from your district boundary? Please provide a descriptive explanation to help us understand.

The rest of Glenmoor.

WHAT'S HAPPENING'S TRI-CITY VOICE

OPINION

WILLIAM MARSHAK

If it looks like a....

manipulations that can skew voting strength and representation.

There is nothing new about manipulation of voters; it has reportedly existed in the United States since its founding. However, the name "Gerrymander" was popularized when a cartoon, in the March 26, 1812 edition of the Boston Gazette, satirized the political redistricting contortions designed to retain control of a Massachusetts state senate seat. Governor Elbridge Gerry signed the bill that allowed an odd-shaped district resembling a grotesque salamander... therefore the label, "Gerry-mander".

There are times when it is difficult to arrive at a definitive conclusion. Established facts may lead to a reasonable assumption, but there is still room for error. In those cases, a practical answer is often couched in terms that fit the idiom, "If it looks like a duck, walks like a duck and quacks like a duck... it probably is a duck."

These days, the saying is appropriate for a variety of subjects but especially in the political arena. Redistricting is upon us and the results of the 2020 Census have now been finalized. These "facts" will be used to not only determine national and regional representation, but for district boundaries of many cities as well.

In an ideal world, democratic representation fairly and evenly apportions the voting public so a majority can determine the direction and tenor of their elected representatives. However, even a superficial examination of politics reveals an undercurrent of systematic corruption of the process. Called "gerrymandering", districts or political divisions are often determined by a set of procedures and

As a deliberate and obvious tactic used by political parties to gain control, even local politicians have resorted to gerrymandering although a bit more difficult to accomplish with a small voter base. An example of this was evident in the first attempt at creating district boundaries for Fremont when it moved from at-large representation to districts in 2018. A contentious discussion revolved around residences of existing councilmembers and how that would affect future elections. Since two existing councilmembers lived in close proximity, an obvious conclusion, if both resided in the same district, would be a guaranteed election loss for one of them. It is hard to escape the conclusion that this factor was instrumental in creating district lines (looks like, walks like, quacks like...).

Fremont, among other districted cities as well as counties and states, is again confronted by the challenge of redistricting. In the September 21st Fremont City Council meeting, an outline of the redistricting process was revealed including legal requirements and other goals, statistics and timeline for adoption of new district boundaries. The next two months have

been reserved for public input of boundary maps to be considered. The next public hearing – the second of four – is scheduled for December 7, 2021. Coincident with the anniversary of the attack on Pearl Harbor heralding entry of the United States into World War II, this may also be the opening salvo of an interesting struggle for political control in Fremont. With a growing population, shifting demographics, it will be an interesting challenge to balance competing narratives to define "communities of interest."

The redistricting process is an important political tool for all residents since it defines representation in the business of government. At its core, is the ability for each individual to take part in a process that has far-reaching consequences when critical decisions for the many reside in the votes of the few.

This particular opportunity takes place only once every 10 years. Let's make the most of it. When considering proposals, remember that if it looks like a duck, walks like a duck and quacks like a duck... it may be a duck, but it can also be an ugly gerrymander peeking out from under a rock.

Subject: Fremont's Redistricting Planning Meeting

Good Afternoon,

I am part of the Glenmoor family, born and raised in the Glenmoor community. I am sure that this committee is well aware of the cohesiveness and fine neighborhood that Glenmoor Gardens has successfully maintained since its inception in the 1950's. It is important that this neighborhood be represented by a single council member to assist in maintaining our community culture, parks and recreational facilities within our Association. I am a firm believer that Glenmoor has played a significant part to what Fremont has become since our City's formation.

Please take this issue seriously as you make your recommendations for the upcoming redistricting of our City. Thank for your time.

Regards,

Garth Smith

Subject: NEW Updated District 4

Dear City of Fremont,

Thank you for the public hearings, workshops and educational materials to allow us to participate effectively in this once-a-decade event.

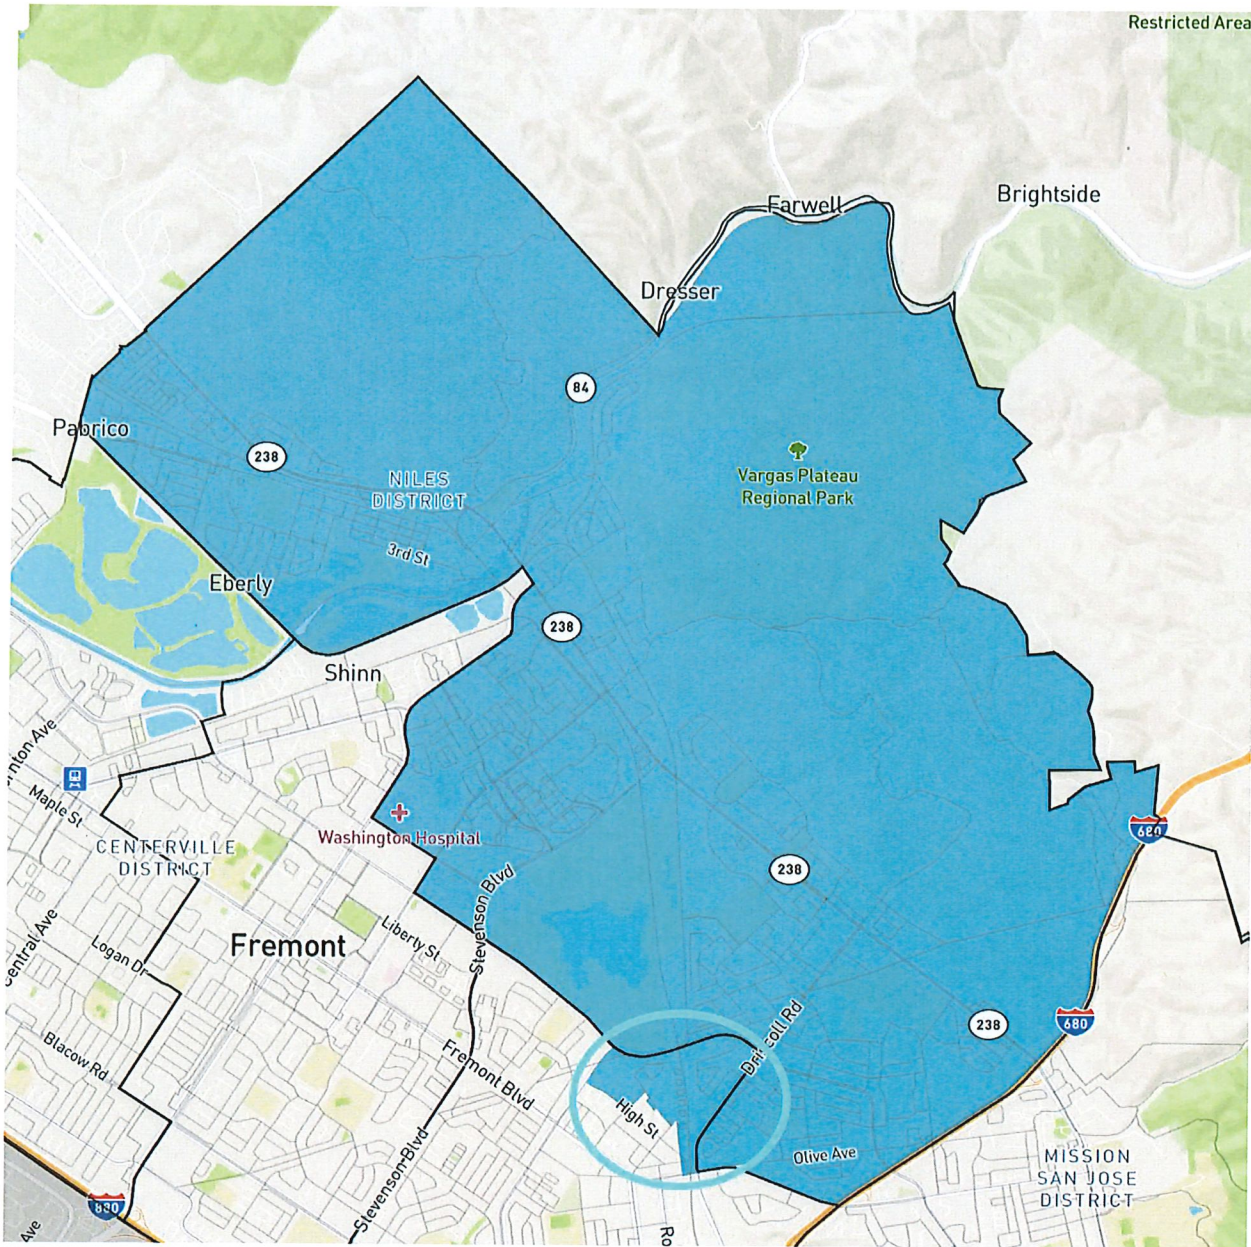

My parents, my sister and I moved to Fremont California in 1985 from Avonmore, Pennsylvania. I grew up in Fremont and attended Harvey Green Elementary, Chadbourne Elementary, Hopkins Junior High and Mission San Jose High School. I love Fremont-- the diversity, the community, our parks and all of the natural beauty in and around this city. My husband and I just purchased a home in District 6, 40708 Wolcott Drive, we have two small children ages 4 and 2. In the three months that we've lived in this neighborhood, it quickly became apparent that there is a distinct section of District 6 that should be united with District 4, creating one community of interest for more effective and fair representation. This section of district 6 (circled below) should be added to district 4 for the following reasons:

- We both share and care about Fremont's Central Park Lake Elizabeth as we border this public space
- We both share the same section of BART and freight train tracks that cross through our neighborhood and Paseo Padre
- We share a more similar level of education and income with District 4, than our adjacent neighborhood in District 6
- A majority of this particular section of District 6 **owns** single-family homes (>\$1M) of which we pay taxes on, more similar to District 4 than our adjacent neighborhood
- District 6 is by far, the most overpopulated Fremont district (5.82% deviation)

This section sits between Grimmer, Paseo Padre and Driscoll, to the east of High Street and Wolcott Drive. Here is District 4 with the addition I'm proposing, circled, creating one community of interest.

District map link [here](#).

I am happy to present or talk through this further, please don't hesitate to reach out to me.

Thank you for your consideration,
Maria Speranza-Camp
